EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Madeline Johnston on 2/23/04.

The application has been amended as follows:

Please replace the specification with the attached substitute specification.

After inserting the substitute specification, replace the first paragraph of page 1 of that specification with the following paragraph.

"Related Applications

This application is a CIP of PCT/US0010098 filed April 15, 2000 which claims priority to U.S. Provisional Application Serial No. 60/159,753 filed October 15, 1999."

Please replace all prior claim listings in the application with the following listing of claims.

(see attachment 'REPLACEMENT CLAIM SET')

Art Unit: 1616

COMMENTS/NOTES REGARDING THE EXAMINER'S AMENDMENT ABOVE

2. The Examiner was given authorization to make changes appearing in the attached replacement claim set. Specifically, authorization was given to amend the original claims to be consistent with the 'replacement claim set' that was submitted in the amendment filed December 3, 2002. Also, in the Examiner's replacement claim set, authorization was given to replace the second '45' appearing in claims 56, 57, 60, and 63 with '46' (there was a typographical error in the amendment filed December 3, 2002). In addition, the Examiner was asked and given authorization to update the continuing data in the specification. The first paragraph of the specification should read 'Related Applications: This application is a CIP of PCT/US0010098 filed April 15, 2000 which claims priority to U.S. Provisional Application Serial No. 60/159,753 filed October 15, 1999.' Finally, the Examiner was given authorization to handwrite text in the specification. Duplicate (readable) copies of the specification were submitted with Applicant's response filed December 3, 2002, but were inadventently not scanned during the imaging process.

ALLOWABLE CLAIMS

3. Claims 1-3, 5-19, 28-32, 37-46, and 56-63 are allowable over the prior art of record for reasons of record in the office action mailed 4/8/03.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. L. Jones whose telephone number is (571) 272-0617. The examiner can normally be reached on Mon.-Fri., 6:45 a.m. - 3:15 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on (571) 272-0602. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov.
